To Who It May Concern

HAYDEN WILLIAMS & GREEN DRAGON SOLUTIONS

We are a small company established in 1995 that produce Hand Crafted Greeting Cards & in our business we rely 100 % on our computer to produce our cards for various local shops.

In the past we have had great difficulty in finding someone who can provide an efficient & rapid response with computer problems but now Mr Hayden Williams looks after our computer systems we have finally found someone who knows what he is doing & has helped us out by rapidly dealing with any problems we have encountered with our Computer System.

He has also repeatedly given us good advice on how to improve the way we operate our computer system.

We can strongly recommend Mr Hayden Williams (Green Dragon Solutions) to any one who needs a **RELIABLE & EFFICIENT SERVICE WITH ANY PROBLEMS ON COMPUTER SYSTEMS.**

Yours faithfully

Brian Bundock
